

foamy lift & exoderma peel

for your salon treatment at home

foamy lift and *exoderma peel* combine to create the ultimate DMK at-home masque. The masque provides superior exfoliation by removing dead skin cell material to reveal a fresh, glowing complexion.

These unique formulations utilise messenger enzymes, used only by DMK. These enzymes provide a true form of nourishment to the skin cells to ensure your skin is not only exfoliated but left feeling fresh and soft as well.

How it works: Mix together one teaspoon of each product using the DMK *fan brush* and *bowl*. Apply a thin layer to the face and leave for 30mins. The masque will harden and contract on your skin. After 30mins soak the masque off using a warm, wet towel.

Key Benefits:

- Exfoliates the skin, helping to alleviate dead skin cell build up and impurities to reveal a fresh, healthy complexion.
- Contains citric acid known for its hydration and brightening capabilities.
- Anti-oxidants are used to fight and combat free radical damage.

foamy lift and *exoderma peel* gives you that salon treatment feel.

Recommended Retail Price:	foamy lift	\$76.00 (30g)
	exoderma peel	\$54.00 (60mL)
