

acne wash

Keeping young skin healthy and balanced

DMK does things differently. We don't strip the oil away or dry up the pimples - we aim to rebalance and restore skin function.

This light, anti-acne cleanser is designed specifically to keep moderate to severe acne under control. By working to calm the redness in acne prone skin its compatible base formulation of benzoyl peroxide acts to alleviate congestion without drying out the skin.

By working to lift away dead cell material *acne wash* can aid in alleviating congestion and dead cell build up. *acne wash* also aims to aid in restoring a healthy acid mantle which is your skin's best form of protection against bacteria.

When used to cleanse the skin twice daily, *acne wash* aims to remove make-up, dirt and dead cell material without stripping the skin, therefore revealing a smoother, calmer complexion.

Suitable for cystic, inflamed acne or clients with clogged or congested skin, *acne wash* is popular amongst teenagers or adults who cannot attend treatments on a regular basis.

Recommended Retail Price: \$92 (180mL)
