

actrol powder

the oily skin saviour

actrol powder is specifically formulated to reduce excess sebaceous oils and fluids.

Suitable for oily, sensitive or acne prone skin, *actrol powder* absorbs oil by removing the excessive shine associated with excess oil production.

By eliminating the moist, damp environment in which bacteria thrives, the incidence of blemishes may also be reduced.

Containing Vitamin C crystals, the formulation avoids stripping the skin which can be caused by the active ingredient Benzoyl Peroxide. The balance of this formulation aims to give the skin a natural look and feel without drying the skin.

actrol powder can be applied throughout the day over moisturisers and make-up. To apply simply use a DMK fan brush and lightly dust over the skin.

Recommended Retail Price: \$66.50 (30g)
