

acu crème

Keeping young skin healthy and balanced

DMK does things differently. We don't strip the oil away or dry up the pimples - we aim to rebalance and revise skin function.

This light, non-greasy plant extract-based moisturiser is designed for oily skin and skin which is prone to breakouts. *acu crème* is a water-based moisturiser which keeps young skin hydrated, helping to unclog congestion.

Since a correctly balanced acid mantle is the best form of protection your skin has against bacteria, *acu crème* aims to aid in restoring a healthy acid mantle.

Containing fractured nutrient oils to help keep skin soft and protected, *acu crème* aids in maintaining moisture balance by continually hydrolysing and fracturing the excess sebaceous oils.

The ingredient, Retinyl Palmitate, encourages the excess dead cell materials to move away from the skin, stopping them from clogging pores and causing breakouts. Retinyl Palmitate is also a very powerful antioxidant.

acu crème contains eucalyptus globules extract, which helps to keep skin purified while the natural astringent properties keep the pores and ducts clean and tight.

Recommended Retail Price: \$33.50 (15mL)

Recommended Retail Price: \$73.00 (60mL)
