

## *body sculpting crème*

like it or lump it

Cellulite: Every woman has it – no woman wants it.

Here to help you ditch the dimples is DMK's *body sculpting crème*. DMK *body sculpting crème* is a breakthrough formulation designed to revise the shape of those stubborn areas.

Formulated to reduce the appearance of cellulite, the crème aims to firm, tighten and tone the skin naturally through a thermogenesis effect. Thermogenesis takes place in the upper epidermis and lower subcutaneous tissue, stimulating circulation and flushing out built-up waste products.

- DMK *body sculpting crème* does not contain any alums or salts which can cause temporary fluid loss.

DMK *body sculpting crème* works best in conjunction with professional DMK Body Sculpting Wrap Treatments.

Recommended Retail Price: \$67.00 (120mL)
