

## *crème citrique*

brighten and balance

*crème citrique* is a unique, rich formulation that works to revise the skin's pH balance and regulate oil flow.

Compounded with fermented orange peel, *crème citrique*'s gentle citric action is designed to brighten and tone the skin. The brightening element makes the crème particularly suitable for those with a naturally high oil secretion, which can often lead to dull, tired looking skin.

Directions:

Using a cotton wool bud, apply five small dots of *crème citrique* onto the face and neck. Using the DMK *herb & mineral mist* spray your face three to four times and rub the crème and mist in together. This should leave your face feeling smooth and refreshed.

Active ingredients:

- *Soybean oil* is a botanical ingredient containing eight essential amino acids as well as lecithin and isoflavones known to mimic estrogen.
- *Tocopherol* is a natural form of vitamin E complex. It is available from many plant and fish sources and is the most powerful antioxidant.
- *Lemon oil* is a natural oil containing lipophilic flavonoids, an anti-inflammatory. It also contains ascorbic acids, which help brighten skin.

Recommended Retail Price:   \$73.00 (60mL)  
  \$33.50 (15mL)
