

dermatox

the three-minute skin cleanser

This paramedical formulation works to draw impurities and toxins out of the skin in just three minutes.

The natural sea salt component in *dermatox* works to remove poisons and free-radical causing pollutants from the epidermal layers of the skin. *dermatox* is also a rich source of minerals and potassium, which is essential in assisting the prevention of infection.

Using a cotton pad, simply apply *dermatox* to the skin and wait for three minutes before rinsing thoroughly. The detoxifying effect is evident in the smell which is omitted from the skin once applied. The stronger the odour - the more impurities and toxins are being removed from the skin.

Unique characteristics and benefits:

- Recommended for people who live in a polluted environment, those who smoke or take medication.
- Contains sea salt, which is a natural purgative and skin purifier.
- Suitable for most skin types and for use on face and body.

Recommended Retail Price: \$40.50 (60mL)
