

herb & mineral mist

quench your skin's thirst

DMK's *herb & mineral mist* is a life force for your skin.

This botanical spray contains vitamins, minerals and all-important water; the formula is designed to imitate the sudoriferous sweat gland that supplies us with one half of our natural acid mantle.

herb & mineral mist is a unique mineral and vitamin formulation that, when absorbed into the skin, assists the delivery of DMK crèmes and serums.

An impaired acid mantle causes 99% of skin problems; *herb & mineral mist* aims to regulate the acid mantle binding with DMK nourishing crèmes to aid in transdermal delivery.

herb & mineral mist can be sprayed over make-up to brighten and wake up tired skin. The essential size is great for long flights and holidays.

Key ingredients

- *Alfalfa* aids in absorption.
- *Sarsaparilla* acts as an antiseptic. It also has an oxygenating effect.
- *Liquorice* is immune boosting and works to inhibit melanin.
- *Fenugreek* reduces inflammatory conditions, such as acne and sunburn. It also helps to retain moisture in the epidermis.
- *Hops* contains proanthocyanidins, which is a powerful antioxidant – more effective than vitamin E – and a good source of vitamin C and natural protein.
- *Kelp* is a rich source of potassium, which helps to prevent infection and skin eruptions.

Recommended Retail Price: \$63.50 (120mL)

\$33.50 (60mL)
