

micro peel

microscopic exfoliation

micro peel is a non-irritating exfoliant which aims to smooth and gently remove dead cells and debris from the surface of the skin.

A gentle, non-abrasive, clear liquid gel, *micro peel* is designed to revise the appearance of skin that is dull and coarse in texture, as well as fine lines and uneven skin tones.

micro peel aims to restore a fresh, smooth radiance helping to refine the texture of the skin.

Easy to use, simply apply a thin layer of *micro peel* to the skin and cleanse and rinse after ten minutes.

A fresh, glowing appearance is just a micro peel away!

Recommended Retail Price: \$86.00 (180mL)
