

## *pore reduction drops*

Clear out and refine your pores

Thanks to DMK you *can* do something about those blackheads.

By working to tighten the pores, DMK *pore reduction* drops can minimise those nasty blackheads. Here's how:

DMK *pore reduction* is an ionised solution containing an effective blend of herbal properties. This combination works to reduce the appearance of open pores by constricting the sides of the pores, making them tighter, more refined and less visible.

*pore reduction drops* work to tighten pores without stripping the skin of natural oils. Unlike other pore minimising products, DMK *pore reduction drops* do not contain astringents, alcohols or abrasives which can strip the skin of those natural oils which often increases the skins oil production.

Clear out and refine your pores with DMK *pore reduction drops*.

Recommended Retail Price: \$67.00 (60mL)
